- ✔ Critical thinking
- ✔ Attention to details
- ✔ Communication skills
- ✔ Time management
- ✔ English level B1

ABOUT

My name is Andrew and I'm a Front-end Developer. I'm familiar with Agile. I have knowledge of tools for creating web applications. I have experience in creating applications applying the best coding practice like DRY, KISS and YAGNI. I'm interested in gaining knowledge and applying them in real projects. At the moment I'm learning Node.js and looking forward to working in teams as well as individually.
